COTTON MARKET NEEDS SOME NEW INCENTIVE

The effect of such threatened tenders quite naturally is proportionately greater than the probable volume thereof, because of the apathy of bull operators."

Interstate Commerce Commissioner Prouty, of Vermont, may move to Bos-ton. Thereby hangs a tale. He is in disfavor with the conserva-

tives of the Senate, and they have dis-covered a way to eliminate him from committee, a provision requiring that one of the nine commissioners under the new law shall be appointed from each judicial district. Prouty and Knapp both live in the same judicial district, and Prouty's term expires first If the Commission were organize anew, the President would seemingly have to choose between them. provision was inserted by a vote of six

to five.
It is doubtful if it will stand in conference, now that its purpose is understood. It would hamper any President greatly in getting the best material for so important a tribunal to have to maintain this exact geographical balance.

Those who know the President best predict that he would meet such legislation by asking Prouty to move into another judicial district, by going to Boston, and so qualify nimself for appointment. Of course, the Senate might refuse confirmation, but here again opponents of the President's railroad policy have no desire to carry their fight into the open.
